

## **Career Opportunity**

### **Naval Architect Technologist**

*TriNav Marine Design Inc.* is an established marine consulting firm and a leader in providing Naval Architecture, Marine Engineering, and vessel support services to the fishing, aquaculture and other marine industries throughout Atlantic Canada. Our innovative approach and top of mind awareness to industry changes enable us to deliver resources and solutions to our clients in this everchanging industry.

We are a proud division of the TriNav Group of Companies, navigating the Marine Industry for over 30 Years.

We are currently seeking applications for a Naval Architect Technologist based in our St. John's, Newfoundland and Labrador and/or Dartmouth, Nova Scotia Office.

### **Job Description**

As a Naval Architect Technologist, you will join our team supporting our Naval Architects and Marine Engineering team with vessel design, stability and surveying.

The successful applicant will be responsible for:

- Research and review various marine Rules and Regulations
- Complete vessel, equipment and related outfit surveys
- Develop technical reports and specifications
- Complete calculations for and assist with design of vessels, modifications, systems, components and related equipment
- Consult and liaison with vessel owners, shipyards, fabricators and regulatory organizations
- Provide onsite technical support to clients
- Complete various ship drawings
- Conduct project field work
- Keep accurate time log of daily activities using pertinent Company software
- Participation in marine shows and exhibitions

- Other duties and responsibilities as may be typically assigned to a Naval Architect Technologist
- Employee is expected to:
  - Carry out duties in a team focused environment
  - Be capable of setting priorities and meeting deadlines
  - Be able to multi-task
  - Have strong oral and written communication skills

**Qualifications:**

- Diploma in Naval Architecture Technology
- Have strong working knowledge of Microsoft Office Suite, AutoCAD, 3D Modeling, GHS Stability Software.
- Knowledge and experience in the commercial fishing industry would be considered an asset but no required.

Compensation will be dependent on the successful candidate's experience and qualifications.

The TriNav Group of Companies supports a diverse and inclusive work environment and welcomes applications from all qualified applicants.

Job Type: Full-time

Benefits:

- Co-paid Group Insurance Plan
- RRSP Contribution match
- Service Recognition
- Training & Development

Schedule:

- Monday to Friday, 37.5 hr/wk

Work Location: In person
